

– FLORIDA CHAPTER OF –
AHRMM

Monthly Memo From The Board

March 2021

To the Florida AHRMM Membership:

The last twelve months have been stressful for us all as the pandemic forced us to solve new problems at a dramatic rate of change. However, Florida has emerged better than most states as we turned adversity into innovation. I believe obstacles inspire growth. Today in Florida, many of our organizations 3D print materials that remain difficult to come by, we are making new connections and transacting with new organizations to get the job done. We are virtually collaborating more and working remotely, making us more efficient. Sourcing is starting to explore bringing manufacturing back on-shore vs. relying solely on off-shore sourcing. We are not standing still. The Florida AHRMM chapter is committed to providing the networking, education, and virtual sharing opportunities needed to keep us all moving forward.

As Treasurer of Florida AHRMM, I enjoy my role supporting our organization and doing administrative tasks that are needed for us to succeed. The educational and networking opportunities made available by Florida AHRMM energize me as I get to meet and share ideas with people in Florida healthcare. As our current pandemic situation improves, hopefully more so each day, we know that more challenges will present themselves in the future. We just need to keep talking.

Thank you,

Rodger Landers
FL AHRMM Treasurer
BayCare Health System
Procurement Manager
