

Happy Holidays, one and all!

From Florida AHRMM

Hello Florida AHRMM Membership:

As another year ends, I would like to share with you a practice I have found very helpful throughout the years: reflection. This process has always allowed me to look back and recall all of the wonderful things that have happened but also to go over all of the challenges faced. I firmly believe that there are lessons in everything, and this exercise forces me to look at things critically and helps me create a new vision for the year ahead.

From tough storms that have devastated many in our state to joyous occasions such as receiving a Diamond Level designation for our chapter, 2022 has made quite an impact. Our chapter continues to lead the way through excellence in providing you, our members, with education, leadership, and a community of professionals with the same goal of advancing healthcare through Supply Chain excellence.

To say that I am proud of our work and the group of supply chain leaders I work with is an understatement. As our industry continues to evolve and we continue to face challenges that never seem to stop, know that we are here to support you and continue providing networking opportunities for all.

This month, I had the opportunity to host all of you at our beautiful University of Miami Campus in Coral Gables, FL. It was a great session exploring and learning, not to mention fueling.

We thank you for all of your support,

Keith J Murphy
Chief Supply Chain Officer – UHealth
University of Miami - UHealth | Leonard
M. Miller School of Medicine

The Fall Conference was a huge success! We had an all-star education lineup and panel discussions, got motivated by Dave Sanderson's experience during the Hudson miracle, celebrated our Diamond Chapter status with cake, thanked Rick Laird for his many contributions as FL AHRMM President, congratulated Carrie Gorman Jobe for succeeding Rick, and spent the day in a beautiful location and campus! [Click here to access the presentations from this conference.](#)

It was great to see so many of you there. If you weren't able to make it this year, don't fret! We will have more in 2023. Be sure to become a member so you are notified of future events.

Thanks to everyone who joined us for our webinar, "Imagining a Three-Dimensional (3D) Inventory Management Process."

We hope you enjoyed it as much as we did. We're excited to announce that the presentation is now available for viewing on if you missed it.

We look forward to seeing you at our next event!

THANKS TO OUR DEDICATED SPONSORS!
